Cantwell Veterans Day Statement

Seattle, WA – U.S. Senator Maria Cantwell (D-WA) released the following statement in honor of Veterans Day

“Today we honor those who made the ultimate demonstration of patriotism – our veterans. We celebrate the men and women who dedicated themselves to protecting American lives and the freedoms that form the bedrock of our society. Their valor demands our gratitude and respect. Today we must also reaffirm our commitment to ensuring that our country upholds promises made to our veterans regarding their health, their education, and providing economic opportunity when they come home. This Veteran’s Day, let us recognize and cherish the veterans in our lives who have given so much to our country and our way of life.”
